- Accommodates various banknote sizes and denominations

- Safeguards customer information with recessed keyboard and card reader

- 12 mm, CEN IV or CEN VI EX safe

- Optional ink-staining technology

- Wide variety of options for customisation

- EMV approved

Application

The Q-CashExterior™ 25 is the entry-level outdoor system in the BANQIT family of ATM products. Designed for use where space is limited, this high-performance through-the-wall cash dispenser is ideal for banks, retailers and cash-in-transit companies.

Its compact rugged design gives a broader range of customers and passers-by fast 24/7 access to cash. Whether in hot or cold climates, the Q-CashExterior 25 performs under the toughest weather conditions. Secure, reliable performance provides you with greater opportunities to collect more revenue from service fees.

All BANQIT cash handling solutions are designed to safeguard the integrity of customer information. A wide variety of customisation options is available.

How it works

Based on state-of-the-art technology, the Q-CashExterior 25 system provides convenient and secure automated services, including dispensing cash, tickets and vouchers, displaying information and printing receipts.

At the heart of the system is the high-speed cash dispenser that delivers up to 100 banknotes in a single bundle. Capable of housing up to five cassettes, the system has a total cassette capacity of 15,000 banknotes. Self-calibrating and double detect sensors maximise system uptime and minimise preventive maintenance.

With its intuitive user interface, the Q-CashExterior 25 features a recessed keyboard and card reader to protect customer privacy during transactions. The LCD clearly presents information to the user whilst preventing unauthorised viewing with an anti-glare filter.

Benefits

- Maximum revenue from minimal space
- Efficient cash handling
- Reduced cash handling costs
- Increased operational efficiency
- Low cost of ownership
- Reliable performance in the toughest weather conditions

Q-CashExterior 25

System features
