

# Q-CashLobby 25

Can you earn more revenue using less space?

Compact freestanding cash dispenser for indoor use

## Fast facts

- Maximum capacity on minimal floor space
- Securely holds up to 15,000 banknotes and/or tickets and vouchers
- Accommodates various banknote sizes and denominations
- Safeguards customer information with recessed keyboard and card reader
- Standard 12 mm or CEN IV safe
- Optional ink-staining technology
- Wide variety of options for customisation
- EMV approved

## Application

The Q-CashLobby™ 25 is the entry-level system in the BANQIT family of ATM products. Designed for use indoors where space is limited, this high-performance freestanding cash dispenser is ideal for banks, retailers and cash-in-transit companies.

With its compact footprint, the Q-CashLobby 25 is easily installed in bank foyers, retail outlets, supermarkets and petrol stations as well as at temporary events, such as concerts.

Occupying just 0.4 m<sup>2</sup> of floor space, the Q-CashLobby 25 securely handles high transaction volumes with speed and accuracy.

All BANQIT cash handling solutions are designed to safeguard the integrity of customer information. A wide variety of customisation options is available.

## How it works

Based on state-of-the-art technology, the Q-CashLobby 25 system provides convenient, reliable and secure cash dispensing services. Functions include dispensing cash, tickets and vouchers, displaying information and printing receipts.

At the heart of the system is the high-speed cash dispenser that delivers up to 100 banknotes in a single bundle. Capable of housing up to five adjustable cassettes, the system has a total cassette capacity of 15,000 banknotes. Self-calibrating and double detect sensors maximise system uptime and minimise preventive maintenance.

With its intuitive user interface, the Q-CashLobby 25 features a recessed keyboard and card reader to protect customer privacy during transactions. The LCD clearly presents information to the user whilst preventing unauthorised viewing with an anti-glare filter. An optional protective enclosure is available to guard an unlocked open safe from the public eye when loading or servicing the dispenser.

## Benefits

- Low cost of ownership
- Cost-efficient reliable operation
- Flexible placement for high return on investment
- Easy-to-deploy, events-based solution
